

DEAL 1

Website + Operational Essentials

A complete website for your academy, built to fix the daily operational gaps that Facebook posts and manual tracking can't solve — announcements, admissions, and results, all managed from one place.

One-Time Setup

Rs. 20,000

Yearly Maintenance & Repair

Rs. 5,000 / year

Note: Hosting and domain charges are not included and will be billed separately based on the provider.

What's Included

✓ Notice Board / Announcements System

Mock test schedules, answer keys, and admission updates — posted once, visible everywhere. Replaces manual Facebook posts that get buried in the feed.

✓ Online Admission Form

All inquiries land in one place automatically. No more missed messages across WhatsApp, Facebook, and phone calls.

✓ Auto-Updating Achievers / Results Page

A permanent, always-visible showcase of your top scorers — not buried in an old Facebook post.

✓ Basic Admin Panel

Manage notices, admissions, and results yourself — no developer needed for daily updates.

✓ Basic Google Visibility

SEO-ready pages and a Google Business listing, so students searching "MDCAT academy in Larkana" can find you.

WHY WEBX NOVA

We've already built and shipped a full MDCAT-prep LMS platform (mrbclasses.com) — student, teacher, and admin portals, a live test engine, video lectures, and secure payments. We understand how academies actually operate, not just how websites look.

Pricing valid for 30 days from the date of this proposal. Final quote shared after a short requirements call.
